WALL STREET, }
THURSDAY, June 6-6 P. M. }
On 'Change to-day wheat and flour were steady. The cotton market was heavy and lower.

MONEY FIVE PER CENT. The dealings in money were more uniform on the basis of five per cent, although some lenders were able to get six per cent from borrowers presenting the less favored class of stock collaterals. Among the government houses there were transactions at as low as four per cent, but not as many as at five per cent, which for the time being seems the conventional figure for call loans when the securities are not objectionable. quite obvious reasons. Foreign exchange was heavy, but nominally unchanged. Transactions were at a concession from the asking rates, which were on the basis of 109% for prime sixty-day sterling and 110% for sight bills

THE GOVERNMENT SALE OF GOLD.

The government sale of gold elicited thirty bids for a total of \$6,730,000, the prices offered ranging from 113.75 to 114.56. The impression existed that the Secretary of the Treasury would sell an extra amount, but the awards were limited to \$2,000,000

at 114.58 a 114.47. The gold market was steady and firm. The price opened at 114%, advanced to 114%, and closed at 114%. The dealings were on a limited scale and the tone of the market quiet. The fluctuations of the day are shown in the table :-

STOCKS DULL AND STRADY. The stock market was dull and in the main steady, the business being light and fluctuations comparatively small, outside of a few features, such as Erie, Pacific Mail, New York Central and Northwestern, to which the transactions of the day were chiefly confined. As if to confound all theories about his intentions, Commodore Vanderbilt has decided to convert the New York Central scrip into stock. Notice was formally given to the Stock Ex-change, under the rules of the Board, of an intention to raise the share capital of New York Central to \$90,000,000 by the conversion of the

FINANCIAL AND COMMERCIAL. the secretary of the company, who further says that the conversion may be made on and after July 10, next. On the street a rumor prevailed that the conversion would be followed by the award to the stockholders of \$10,000,000 of new stock, raising the capital to \$100,000,000—the new stock to be sold for 40 per cent cash, thus giving the treasury \$4,000,000 of money. All this adjunct to the conver-sion matter, while problematical and suggested by the active fancy of Wall street, is not unlikely in view of the enterprise of the Vanderbilt tunnel, for the construction of which the \$4,000,000 cash would be an immediate earnest. At the same time the inplication that Harlem is to be given the go-by in getting the tunnel is reflected in the weaker tone of that stock to-day and a decline of one per cent in its price. Naturally this intelligence had the effect of bringing the stock and scrip together, which it did by lowering the former and raising the latter until the difference was at one time only 34 per cent, and at the close only 1/2 per cent. Northwestern declined to 73% on advices from Chicago stating that the directors, at the meeting this afternoon, passed the dividend on the common stock and declared 3½ per cent on the preferred. This latter amount is the semi-annual interest to which the preferred stock is entitled by the terms of its creation. The annual elections of the Rock Island and Northwestern companies offered no features of interest and were without contest. The President of the Boston Hartford and Eric Railroad notified the Stock Ex change, under date of June 5 (yesterday), that the transfer books were open at the office of the Bankers and Brokers' Association, on Broad street where, after a number of migrations, they have a length settled. The books were really opened a the time announced in the HERALD about ten days since, when the stock declined from 11 to 7, bu the former registrars, the Farmers' Loan and Trus Company, had refused to take charge of the trans fers, as the road in its poverty was unable to pa the expense incurred. An arrangement appear now to have been made with the Bankers and Brokers' Company, to whom a bill was also due for registry service, which was settled, so it is said, by a collection among the stockholders in the street. Eric declined to 60% in sympathy with a decline in London to 48%. The result of the Philadelphia Convention was fully anticipated and had little influence upon the markets, whatever may be the eventual effect of a wider belief in the re-election of the present administration. The Jerome Park races were for the moment a more disturbing incident, so far as business was checked.

BOARD OF AUDIT.

The City Creditors Getting Anxious-"Tom Fields" and Ex-Senator Norton in the Crowd of Supplicants-Another List of Newspaper Claims - Obscure Journals Looming Up.

The usual weekly meeting of this Board, after an interregnum of nearly a month, took place yesterday in the County Bureau. There was a large attendance of citizens, who clustered around the barriers which separated the public from the space where the meeting was held with a tenacity of purpose that could not have been surpassed had the Comptroller been actually paying the claims, instead of going through the ordinary routine of examination. Among these anxious ones were Assemblyman Tom Fields and ex-Senator Norton, both of whom were as suppliant for their money as a "Boulevard laborer." Mr. Fields' claim of \$7,000 was, on the motion of Commissioner Van Nort, referred to the counsel of the Board, and Mr. Fields was told that the claim would take its usual course and be reached in its order.

There was a long list of newspaper claims submitted and laid over, which are in addition to those already submitted, making the total claims for advertising over \$2,000,000. Mr. Whittemore and the examiners state that delay in the examination of newspaper claims has originated mainly by the claimants not accompanying their claims with vouchers of the order for the insertion of the advertisement, and also the legal proceedings that some of the claimants have commenced having taken away the examiners from their regular duty. The following is a summary of the business trans-acted:—

acted:—

Resolved. That the claims of the several gas companies, which have been filled with this Board for gas supplied in 1871 to the Police Department, the Board of Education or 1871 to the Police Department, the Trie Department of Charities and Correction. De reported to the Board of Charities and Correction, be reported to the Board of Charities and Correction, be reported to the Board and made a special order at the earliest practical moment.

The Board adjourned until Thursday next at three THE ISRAELITES IN THE EAST.

Origin and Progress of the Anti-Jewish Riots in Smyrna-Lamentable Out-rages and Severe Suffering. A Smyrna letter of the 4th of May, addressed to

the Levant Herald, supplies the following report of the origin, progress and results of the anti-Israelite riot which lately took place in that city and was

the origin, progress and results of the anti-israelite riot which lately took place in that city and was briefly stated, by cable telegram, in our columns at the moment. The writer says:—

We have passed through a week of great excitement and anxiety at Smyrna. On Saturday last the report flew about the town that the body of a poor Christian child of four years of age was lying exposed at the Greek hospital, who had been tortured and murdered by a set of ferocious cannibal Jews, who, it was declared, required the blood of a Christian child as a sacrifice every year at the Passover. I at once proceeded to the Greek hospital, as upwards of 10,000 people had done before me, and, on inquiry of the surgeon, found that the death of the calid had been caused by accidental drowning. On expressing my surprise that such a melodramatic sort of exhibition should be made of the body, the crowd being admitted in immense numbers to inspect and overhaul the remains, I was assured that there was no other way of counteracting the effect of the fable in circulation, and of persuading the excited populace that the child had been shipply drowned, and not put to death by torture. Even as it was, the worthy surgeon expressed his fear that the fantaticism of the mob would lead to serious results, and his apprehension, unfortunately, was too speedily and sadly realized.

A fearful onset was made upon the Jews that very day. In vain did the priests from the church pulpits and others elsewhere prociaim the truth, and assure the people that the child had simply met its death by drowning. Every Jew met with was horribly maitreated, and, after some hours of

indecision, in which it was valuly hoped that sober sense might prevail, the excited Greek mob, with all the rascality of the town in its trsin, made for the Jowish quarter, sacked the houses, murdered the inmates, and committed other acts of brutal atrocity. Many Jews at length turned upon their assailants, and from attacked, in self-defence became attackers. Then the fury of the Greek rabble knew no bounds; men were fiendishly beaten, women were violated, children even were not spared, and day after day until Wednesday was the Jewish quarter converted into a pandemonium of pillage, rape and murder. Not until then did Hamdi Pacha, by acts at any rate, seem to feel that he was Governor of Sinyrna and responsible for human life and public order within its walls; not until then did he advance the troops upon the scene and quell the mob effectually. The apparent inaction of Hamdi Pacha may be explained by the fact that on Saturday he had only 180 soldiers in the town to make headway against 10,000 of a fanatical and exasperated Greek populace, whereas, brought in hurriedly from all quarters, we have now eight full battallons of troops. The result is that the rioters have held their hands, the mob is kept thoroughly in check, and lamentable as is what has occurred you need have no fear of its renewal.

BURGLARY IN THIRTY-FIRST STREET.

Yesterday morning officers McMillan and Revel, of the mounted police, saw Francis McNulty and John Hogan passing through Thirty-first street near Sixth avenue, having in their possession three cases of wine. Surmising they had been stolen, they were arrested, and in company with the property taken to the station house. The officers suberty taken to the station house. The officers subsequently ascertained that the "female boarding house" of Kate Heath, at 117 West Thirty-first street, had been entered by means of forcing open the front basement door, and the wine found in possession of the prisoners passed up through the grating. They claimed to have found the property on the pavement upon being arraigned before Justice Cox at Jefferson Market yesterday afternoon, but were fully committed for trial.
